

MAGDEBURG LECTURES ON OPTIMIZATION AND CONTROL

About

In the frame of the Magdeburg Lectures on Optimization and Control Series every semester 3-4 experts from the field of control and optimization are invited.

The lecture series is jointly organized by the Department of Electrical Engineering (Prof. Rolf Findeisen), the Department of Mathematics (Prof. Volker Kaibel, Prof. Sebastian Sager), the Max-Planck-Institute Magdeburg (Prof. Peter Benner) and the Center for Dynamic Systems.
